DETAILED ACTION

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Change claim 45 to read as follows:

*Sub
KI*

Claim ~~45~~¹. The production apparatus for producing a crystal, said apparatus comprising:

a crucible divided into a plurality of stages, each stage containing a crystal precursor material; and

a heater arranged to heat said crucible,

wherein said crucible has formed therein a degassing hole in a side wall portion thereof for discharging an impurity gas produced when refining [a] the crystal precursor material by adding a scavenger thereto, and

wherein a lower portion of a first stage of the plurality of stages is positioned to cover an upper edge of a wall portion of a second stage of the plurality of stages, the overall height of said plurality of stages is 10mm to

G1 end

50mm, the degassing hole has a diameter of 1mm to 5mm, and [the crystal is] a fluoride crystal is formed from the crystal precursor material.

Allowable Subject Matter

2. Claims 45-47, 49-53 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The examiner notes the claims as amended require a crucible with the fluoride material to be present. Additionally, the prior art (see apparatus description of Mizugaki US 6,123,764) does not disclose the sidewall degassing holes of the present invention in a crucible with a fluoride material. The Wanetzky patent (US 4,818,282) does not suggest the sidewall degassing holes and has no suggestion for a crucible containing fluoride precursor materials. Cheredov's apparatus, although it contains fluorides, does not suggest the side wall degassing holes (see Fig. 1). Tokuhara(US 4,032,313) does not suggest the first stage positioned to cover an upper edge of a wall portion of a second stage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
